RESTRICTIONS

Customer's use of the Terra Cover ReaLSAT Processing Block provided with the UP42 service is subject to the following:

- A. Terra Cover is a third-party beneficiary of UP42's rights under any agreement with Customer in order to enforce intellectual property rights, but is not a party thereto and shall have no obligations thereunder.
- B. Except as permitted elsewhere in this Agreement, only Customer's named user who originally consumed the Terra Cover Processing Block may access, manipulate, or otherwise use the Processing Block. Customer must have an active connection to the UP42 service in order to consume the Terra Cover Processing Block and may not store or cache the Processing Block or outputs. Customer may not publicly provide representations of the Terra Cover Processing Block in a manner that would enable a third party to scrape, compile, or enhance another set of data or information with the Terra Cover Processing Block or outputs.
- C. If Customer is an agency, department, or other entity of any government, any other public entity, or funded in whole or in part by a government, then Customer hereby agrees to protect the Processing Block from public disclosure and to consider the Processing Block exempt from any statute, law, regulation, or code, including any Sunshine Act, Public Records Act, Freedom of Information Act, or equivalent, which permits public access and/or reproduction or use of the Processing Block. In the event that such exemption is challenged under any such laws, this Agreement shall be considered breached and any and all right to retain any copies or to use of the Processing Block shall be terminated and considered immediately null and void. Any copies of the Processing Block outputs held by Customer shall immediately be destroyed. If any court of competent jurisdiction considers this clause void and unenforceable, in whole or in part, for any reason, this Agreement shall be considered terminated and null and void, in its entirety, and any and all copies of the Processing Block and outputs shall immediately be destroyed.
